

India's No 1 Interactive Kiosk Solution Provider & Manufacturer

E-Governance Kiosk!

To bridge the gap between the Governing bodies and the public, IoT based E-Governance Touch Screen Kiosk has been designed that successfully provides information to users. This Touch Screen Kiosk for online payment greatly emphasizes the importance of information issued by the government and helps in spreading the message to each and every one. It gets access to government websites and provides updated information to people who inquire about it.

Bill payment is one of the agendas of E-Governance which is Blockchain enabled digital transaction framework that accepts the bills such as electricity, water, gas, mobile, landline, broadband etc. It facilitates users to perform online transactions without any cost.
